This rescue kit is mostly suitable for rescues being done on conscious victims who will be able to assist in the rescue procedure, by connecting the carabiner to their frontal attachment point. Should one have the need for a versatile kit that can assist with unconscious victim rescues, an extension pole can be added in order for the rescuer to connect the carabiner to the victim's harness.

The kit consists of:

- 11mm Kern Mantle Static Rope X 50m
- Anchor Sling 1.5m X 1
- Oval Screwgate Carabiner X 4
- Petzl ID X 1
- Extension Pole X 1 (Optional)
