

FALL ARREST EXPERTS , REACHING NEW HEIGHTS

EVOLUTION HEIGHT SAFETY PTY LTD.

INSTALLATIONS ROPE ACCESS & CONSULTATION

Evolution Height Safety has a qualified and well equipped team which can perform installations of permanent fall arrest systems. We can also compile Fall Protection Plans complete with Risk assessments, Rescue Plans and Standard operating procedures. Further to our Fall Arrest services we also provide Rope Access services, this includes cleaning of buildings / windows, cleaning & maintenance of silos and similar structures, rescue assistance, industrial cleaning, waterproofing, painting and much more.

All the products that we install are tested against international standards (EN), and our technicians undergo strict hands on training in order for them to be prepared for each installation. We ensure that we conduct thorough site surveys prior to the quotation process in order to prevent unforeseen costs.

We are proud distributors of the Capital Safety DBI Sala range. Some of the brands that we install :

- 1) Uni 8 Overhead Lifelines
- 2) Uni 8 Evolution combined Lifelines
- 3) Uni 16 Lifelines
- 4) Roof safe anchor & Cable Lifelines
- 5) Railok 90 Rails
- 6) Uni Rail & Roof safe rail
- 7) Single Man Anchors
